

PROJECT TITLE : FLAVOUR DEVELOPMENT
PROJECT LEADER : A. BADSTUBER
PERIOD COVERED : January 3rd - January 25th 1980
WRITTEN BY : A. BADSTUBER

SUPPLIERS

- The three tobaccos extracts received from Bertrand Frères will be tested as soon as possible.
- IFF has contacted us to prepare a visit for Mr. M. Trewitt, a specialist on tobacco flavours.

ASSISTANCE TO OTHER PROJECT LEADERS

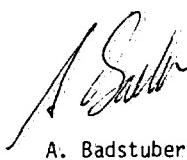

- We worked on the projects COLORADO / GAMMA / GOSTA / HILTON UK / NEWCASTLE / PERSEPOLIS / PETER PAN / TENNIS UK.
- 60 kg of tobacco were treated for two different projects.

FOIL MENTHOLATING

- Trials to standardize blends and solutions of menthol are under way :
 - Blends : CRF and CRM
BSD and BSC
 - Solutions : To standardize the proportion between synthetic and natural menthol.
- A production of BSC has been made with the foil mentholating method.
- We have received bobbins from Belgium and Holland to run trials for the introduction of the foil mentholating system in these countries.
- Packers are equipped with embossing heads heaters and we can produce all mentholating brands (MFM, MEM, BSC, CRM) in hinge lid packs.

000143757

- 160 bobbins were mentholated for PMG Munich.
- A program has been established to analyse losses at the beginning of packing of MLN-DB in Munich. The production is under control and cigarettes will be sent to FTR for analyses.
Analyses will be made in February.
